PAIN

Pain 109 (2004) 535–542

www.elsevier.com/locate/pain

Subject Index to Volume 109 (2004)

Acupuncture
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Acute pain
Gender differences in post-operative pain and patient controlled analgesia use among adolescent surgical patients, **109**, 481
Acute pain trials
Outcomes in acute pain trials: systematic review of what was reported?, **109**, 351
Adenosine receptors
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
Adenosine triphosphate
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Adolescents
Gender differences in post-operative pain and patient controlled analgesia use among adolescent surgical patients, **109**, 481
Aftersensations
Sex differences in temporal summation of pain and aftersensations following repetitive noxious mechanical stimulation, **109**, 115
Alfentanil
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Algometry
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Allodynia
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Allodynia
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
Allodynia
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
AMPA receptor subunits
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210
Analgesia
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
Analgesia
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Analgesia
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
Analgesia
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
Analgesia
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
Analgesics
Outcomes in acute pain trials: systematic review of what was reported?, **109**, 351
Annexin
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
Antagonist
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Anterior cingulate cortex
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Antinociception
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
Antinociception
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Anxiety
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Anxiety and Positive Outlook Scale
The development and testing of the depression, anxiety, and positive outlook scale (DAPOS), **109**, 181
Arthritis
Modulation of the gait deficit in arthritic rats by infusions of muscimol and bicuculline, **109**, 453
Attention
Distraction modulates connectivity of the cingulo-frontal cortex and the midbrain during pain—an fMRI analysis, **109**, 399
Behavior
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
Bicuculline
Modulation of the gait deficit in arthritic rats by infusions of muscimol and bicuculline, **109**, 453
Botulinum toxin
Treatment of chronic tension-type headache with botulinum toxin A: a randomized, double-blind, placebo-controlled multicenter study, **109**, 110
Bupivacaine
Spinal cord lesion after long-term intrathecal clonidine and bupivacaine treatment for the management of intractable pain, **109**, 189
Caffeine
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
Calcium imaging
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443

doi:10.1016/S0304-3959(04)00233-7

Cancer
Ethosuximide reverses paclitaxel- and vincristine-induced painful peripheral neuropathy, **109**, 150
Cancer
Taxol-induced sensory disturbance is characterized by preferential impairment of myelinated fiber function in cancer patients, **109**, 132
Cannabinoid
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Capsaicin
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Capsazepine
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
Catastrophizing
Catastrophizing and perceived partner responses to pain, **109**, 500
CB-1 receptor
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
CB-2 receptor
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Central pain
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Central sensitization
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
[^{11}C]FLB 457
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Chemotherapy
Ethosuximide reverses paclitaxel- and vincristine-induced painful peripheral neuropathy, **109**, 150
Chemotherapy
Taxol-induced sensory disturbance is characterized by preferential impairment of myelinated fiber function in cancer patients, **109**, 132
Children
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
Chronic constriction injury models
Mice lacking fatty acid amide hydrolase exhibit a cannabinoid receptor-mediated phenotypic hypoalgesia, **109**, 319
Chronic fatigue syndrome
Exercise lowers pain threshold in chronic fatigue syndrome, **109**, 497
Chronic inflammatory painful state
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Chronic pain
Catastrophizing and perceived partner responses to pain, **109**, 500
Chronic pain
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Chronic pain
Modulation of the gait deficit in arthritic rats by infusions of muscimol and bicuculline, **109**, 453
Chronic pain
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Chronic pain
Reasons for missing interviews in the daily electronic assessment of pain, mood, and stress, **109**, 389
Chronic pain
Spinal cord lesion after long-term intrathecal clonidine and bupivacaine treatment for the management of intractable pain, **109**, 189
Chronic pain
Spousal congruence on disability, pain, and spouse responses to pain, **109**, 258
Clinical trial
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Clonidine
Spinal cord lesion after long-term intrathecal clonidine and bupivacaine treatment for the management of intractable pain, **109**, 189
Cluster analysis
Stability of patient adaptation classifications on the multidimensional pain inventory, **109**, 94
Cluster headache
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Cognition
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Cognitive-behavioural
Relationship between changes in coping and treatment outcome in patients with Fibromyalgia Syndrome, **109**, 233
Complete Freund's adjuvant
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Confirmatory factor analysis
The development and testing of the depression, anxiety, and positive outlook scale (DAPOS), **109**, 181
Coronary artery bypass graft
Impact of preoperative education on pain outcomes after coronary artery bypass graft surgery, **109**, 73
Coronary artery bypass graft
Lessons learned from a multiple-dose post-operative analgesic trial, **109**, 103
Cycling
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
D2/D3 receptor
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Depression
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Depression
Spousal congruence on disability, pain, and spouse responses to pain, **109**, 258
Depression
The development and testing of the depression, anxiety, and positive outlook scale (DAPOS), **109**, 181
Descending inhibition
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
Development
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
Dextromethorphan
Modulation of morphine analgesia by site-specific *N*-methyl-D-aspartate receptor antagonists: dependence on sex, site of antagonism, morphine dose, and time, **109**, 274
Disability
Spousal congruence on disability, pain, and spouse responses to pain, **109**, 258

Disc degeneration
Possible association of interleukin 1 gene locus polymorphisms with low back pain, **109**, 8
Disinhibition hypothesis
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
5,5′-Dithio-bis-(2-nitrobenzoic acid)
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Dopamine
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Dorsal horn
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64
Dorsal horn
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
Dorsal root ganglion
Decreasing sympathetic sprouting in pathologic sensory ganglia: a new mechanism for treating neuropathic pain using lidocaine, **109**, 143
Education intervention
Impact of preoperative education on pain outcomes after coronary artery bypass graft surgery, **109**, 73
Electromyographic activity
Associations between pain and neuromuscular activity in the human jaw and neck muscles, **109**, 225
Electron microscopy
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Electronic diary interviews
Reasons for missing interviews in the daily electronic assessment of pain, mood, and stress, **109**, 389
Endocrine
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Endogenous cannabinoid
Mice lacking fatty acid amide hydrolase exhibit a cannabinoid receptor-mediated phenotypic hypoalgesia, **109**, 319
Epidemiology
Possible association of interleukin 1 gene locus polymorphisms with low back pain, **109**, 8
Epidemiology
The anatomical pattern and determinants of pain in the neck and upper limbs: an epidemiologic study, **109**, 45
Ergogenic aid
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
Ethnicity
Genetic influence on variability in human acute experimental pain sensitivity associated with gender, ethnicity and psychological temperament, **109**, 488
Exercise
Exercise lowers pain threshold in chronic fatigue syndrome, **109**, 497
Experimental pain
The meaning of pain influences its experienced intensity, **109**, 20
Experimental pain human model
Genetic influence on variability in human acute experimental pain sensitivity associated with gender, ethnicity and psychological temperament, **109**, 488
Extracellular signal-regulated protein kinase
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64
Fatty acid amide hydrolase
Mice lacking fatty acid amide hydrolase exhibit a cannabinoid receptor-mediated phenotypic hypoalgesia, **109**, 319
Fibromyalgia
Relationship between changes in coping and treatment outcome in patients with Fibromyalgia Syndrome, **109**, 233
Fibromyalgia syndrome
Stability of patient adaptation classifications on the multidimensional pain inventory, **109**, 94
Fitness
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
fMLF
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
fMRI
Distraction modulates connectivity of the cingulo-frontal cortex and the midbrain during pain—an fMRI analysis, **109**, 399
Formalin
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
Formyl peptide receptors
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
Functional connectivity
Distraction modulates connectivity of the cingulo-frontal cortex and the midbrain during pain—an fMRI analysis, **109**, 399
Functional Disability Inventory
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
Functional impairment
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
GABA
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
Gender
Genetic influence on variability in human acute experimental pain sensitivity associated with gender, ethnicity and psychological temperament, **109**, 488
Gender differences
Gender differences in post-operative pain and patient controlled analgesia use among adolescent surgical patients, **109**, 481
Gender differences
Sex differences in temporal summation of pain and aftersensations following repetitive noxious mechanical stimulation, **109**, 115
Genetic variation
Genetic influence on variability in human acute experimental pain sensitivity associated with gender, ethnicity and psychological temperament, **109**, 488
Global ratings of satisfaction
Lessons learned from a multiple-dose post-operative analgesic trial, **109**, 103
Glutamate receptor channel
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
Glutamate receptor subtype
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
GRIP/PICK1
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210

Headache
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Heat pain
Distraction modulates connectivity of the cingulo-frontal cortex and the midbrain during pain—an fMRI analysis, **109**, 399
Herpes zoster
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
HIV
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Hospital Anxiety and Depression Scale
The development and testing of the depression, anxiety, and positive outlook scale (DAPOS), **109**, 181
5-HT_{1B}-receptor
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
5-HT_2-receptor
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
5-HT_3-receptor
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
Human experimental muscle pain
Associations between pain and neuromuscular activity in the human jaw and neck muscles, **109**, 225
Hyperalgesia
Activation of peripheral cannabinoid receptors attenuates cutaneous hyperalgesia produced by a heat injury, **109**, 432
Hyperalgesia
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
Hypoalgesia
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291
Hypocretin
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
IL-1 gene locus polymorphisms
Possible association of interleukin 1 gene locus polymorphisms with low back pain, **109**, 8
Inflammation
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
Inflammatory pain
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
Inhibition
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
Insula
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Intermittent claudication
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64
Interneuron
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
Interpretation
The meaning of pain influences its experienced intensity, **109**, 20
Intrathecal
Intrathecal opioid treatment for chronic non-malignant pain: a 3-year prospective study, **109**, 242
Intrathecal pain treatment
Spinal cord lesion after long-term intrathecal clonidine and bupivacaine treatment for the management of intractable pain, **109**, 189
Iodo-resiniferatoxin
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
Jaw muscle
Associations between pain and neuromuscular activity in the human jaw and neck muscles, **109**, 225
L-cysteine
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Longitudinal analysis
Lessons learned from a multiple-dose post-operative analgesic trial, **109**, 103
Low back pain
Possible association of interleukin 1 gene locus polymorphisms with low back pain, **109**, 8
Meaning
The meaning of pain influences its experienced intensity, **109**, 20
Mechanical nociception
Sex differences in temporal summation of pain and aftersensations following repetitive noxious mechanical stimulation, **109**, 115
Mechanical sensation
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Mechanotransduction
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Mibefradil
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Migraine
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Missing data
Reasons for missing interviews in the daily electronic assessment of pain, mood, and stress, **109**, 389
Mitogen-activated protein kinase
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64
Modulation
Distraction modulates connectivity of the cingulo-frontal cortex and the midbrain during pain—an fMRI analysis, **109**, 399
Mood
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Mouse
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
mRNA
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
Muscimol
Modulation of the gait deficit in arthritic rats by infusions of muscimol and bicuculline, **109**, 453
Musculoskeletal disorders
Systematic review of prognostic cohort studies on shoulder disorders, **109**, 420
Musculoskeletal pain
Office visits and analgesic prescriptions for musculoskeletal pain in US: 1980 vs. 2000, **109**, 514

National Ambulatory Medical Care Survey
Office visits and analgesic prescriptions for musculoskeletal pain in US: 1980 vs. 2000, **109**, 514
Neck
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Neck and upper limb pain
The anatomical pattern and determinants of pain in the neck and upper limbs: an epidemiologic study, **109**, 45
Neck muscle
Associations between pain and neuromuscular activity in the human jaw and neck muscles, **109**, 225
Neonate
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
Neuropathic pain
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210
Neuropathic pain
Absence of an association between axotomy-induced changes in sodium currents and excitability in DRG neurons from the adult rat, **109**, 471
Neuropathic pain
Decreasing sympathetic sprouting in pathologic sensory ganglia: a new mechanism for treating neuropathic pain using lidocaine, **109**, 143
Neuropathic pain
Evidence that CB-1 and CB-2 cannabinoid receptors mediate antinociception in neuropathic pain in the rat, **109**, 124
Neuropathic pain
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
Neuropathic pain
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Neuropathic pain
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Neuropathy
Taxol-induced sensory disturbance is characterized by preferential impairment of myelinated fiber function in cancer patients, **109**, 132
Nicotine
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
NMDA receptor antagonist
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
NMDA receptor
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
NMDA receptor channel
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
N-Methyl-D-aspartate
Modulation of morphine analgesia by site-specific *N*-methyl-D-aspartate receptor antagonists: dependence on sex, site of antagonism, morphine dose, and time, **109**, 274
Nociception
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Nociception
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
Nociception
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
Nociception
Stimulus-dependent specificity for annexin 1 inhibition of the inflammatory nociceptive response: the involvement of the receptor for formylated peptides, **109**, 52
Non-malignant
Intrathecal opioid treatment for chronic non-malignant pain: a 3-year prospective study, **109**, 242
Non-nutritive suckling
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
Novel target
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210
Noxious heat
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
NSF
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210
Nursing
Ontogeny of analgesia elicited by non-nutritive suckling in acute and persistent neonatal rat pain models, **109**, 507
OP-1206 α-CD
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64
Opioid
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Opioid
Intrathecal opioid treatment for chronic non-malignant pain: a 3-year prospective study, **109**, 242
Opioid
Modulation of morphine analgesia by site-specific *N*-methyl-D-aspartate receptor antagonists: dependence on sex, site of antagonism, morphine dose, and time, **109**, 274
Opioid analgesia
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
Opioid receptors
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Opioids
Office visits and analgesic prescriptions for musculoskeletal pain in US: 1980 vs. 2000, **109**, 514
Orexin
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
p38α MAPK
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
P2X3
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Pain
Activation of peripheral cannabinoid receptors attenuates cutaneous hyperalgesia produced by a heat injury, **109**, 432
Pain
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Pain
Dose-dependent effect of caffeine on reducing leg muscle pain during cycling exercise is unrelated to systolic blood pressure, **109**, 291

Pain
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
Pain
Ethosuximide reverses paclitaxel- and vincristine-induced painful peripheral neuropathy, **109**, 150
Pain
Intrathecal opioid treatment for chronic non-malignant pain: a 3-year prospective study, **109**, 242
Pain
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Pain measurement
Lessons learned from a multiple-dose post-operative analgesic trial, **109**, 103
Pain measurement
Stability of patient adaptation classifications on the multidimensional pain inventory, **109**, 94
Pain perception
The meaning of pain influences its experienced intensity, **109**, 20
Pain severity
Spousal congruence on disability, pain, and spouse responses to pain, **109**, 258
Pain threshold
Exercise lowers pain threshold in chronic fatigue syndrome, **109**, 497
Palmtop computer
Reasons for missing interviews in the daily electronic assessment of pain, mood, and stress, **109**, 389
Panic disorder
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Patient-controlled analgesia
Gender differences in post-operative pain and patient controlled analgesia use among adolescent surgical patients, **109**, 481
Personality inventory
Stability of patient adaptation classifications on the multidimensional pain inventory, **109**, 94
Physical workload
Possible association of interleukin 1 gene locus polymorphisms with low back pain, **109**, 8
Placebo or sham acupuncture
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Placebo-controlled study
Treatment of chronic tension-type headache with botulinum toxin A: a randomized, double-blind, placebo-controlled multicenter study, **109**, 110
Positron emission tomography
Alfentanil increases cortical dopamine D2/D3 receptor binding in healthy subjects, **109**, 86
Posterior hypothalamus
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Post-herpetic neuralgia
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Post-operative pain
Gender differences in post-operative pain and patient controlled analgesia use among adolescent surgical patients, **109**, 481
Postoperative pain
Impact of preoperative education on pain outcomes after coronary artery bypass graft surgery, **109**, 73
Postsurgical pain
A double-blind placebo-controlled comparison of tramadol/acetaminophen and tramadol in patients with postoperative dental pain, **109**, 250
Posttraumatic stress disorder
Panic disorder and pain in a national sample of persons living with HIV, **109**, 172
Pregabalin
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Primary afferent neuron
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
Prognosis
Systematic review of prognostic cohort studies on shoulder disorders, **109**, 420
Projection
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
Protein:protein interactions
A new view on how AMPA receptors and their interacting proteins mediate neuropathic pain, **109**, 210
Psychophysics
Taxol-induced sensory disturbance is characterized by preferential impairment of myelinated fiber function in cancer patients, **109**, 132
Pump
Intrathecal opioid treatment for chronic non-malignant pain: a 3-year prospective study, **109**, 242
Pyrimidine
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Quantitative somatic sensory testing
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Randomized controlled trial
Impact of preoperative education on pain outcomes after coronary artery bypass graft surgery, **109**, 73
Rat
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Rat
Differential modulation of nociceptive dural input to [hypocretin] orexin A and B receptor activation in the posterior hypothalamic area, **109**, 367
Rats
Activation of peripheral cannabinoid receptors attenuates cutaneous hyperalgesia produced by a heat injury, **109**, 432
Receptor targeting
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Recurrent pain
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
Redox state
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Reliability
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
Remedication
Outcomes in acute pain trials: systematic review of what was reported?, **109**, 351
Reproducibility of results
Stability of patient adaptation classifications on the multidimensional pain inventory, **109**, 94

Risk factors
The anatomical pattern and determinants of pain in the neck and upper limbs: an epidemiologic study, **109**, 45
Ruthenium red
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
SD-282
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
Sensory loss
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Sensory neuron
The P2Y agonist UTP activates cutaneous afferent fibers, **109**, 36
Sensory neurons
Redox modulation of peripheral T-type Ca^{2+} channels in vivo: alteration of nerve injury-induced thermal hyperalgesia, **109**, 328
Serotonin
5-HT receptors involved in opioid-activated descending inhibition of spinal withdrawal reflexes in the decerebrated rabbit, **109**, 162
Sex
Impact of preoperative education on pain outcomes after coronary artery bypass graft surgery, **109**, 73
Sex differences
Catastrophizing and perceived partner responses to pain, **109**, 500
Sex differences
Modulation of morphine analgesia by site-specific *N*-methyl-D-aspartate receptor antagonists: dependence on sex, site of antagonism, morphine dose, and time, **109**, 274
Shoulder
Effect of acupuncture treatment on chronic neck and shoulder pain in sedentary female workers: a 6-month and 3-year follow-up study, **109**, 299
Shoulder
Systematic review of prognostic cohort studies on shoulder disorders, **109**, 420
Sleep
Pregabalin reduces pain and improves sleep and mood disturbances in patients with post-herpetic neuralgia: results of a randomised, placebo-controlled clinical trial, **109**, 26
Spinal
Nicotine differentially activates inhibitory and excitatory neurons in the dorsal spinal cord, **109**, 308
Spinal cord
Effects of intrathecal injections of melatonin analogs on capsaicin-induced secondary mechanical allodynia and hyperalgesia in rats, **109**, 340
Spinal cord
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Spinal cord
Spinal cord lesion after long-term intrathecal clonidine and bupivacaine treatment for the management of intractable pain, **109**, 189
Spinal cord injury
Mechanical allodynia following contusion injury of the rat spinal cord is associated with loss of GABAergic inhibition in the dorsal horn, **109**, 379
Spontaneous behavior
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Spouse responses
Catastrophizing and perceived partner responses to pain, **109**, 500
Spouse responses
Spousal congruence on disability, pain, and spouse responses to pain, **109**, 258
Sternotomy
Lessons learned from a multiple-dose post-operative analgesic trial, **109**, 103
Streptozotocin
Antinociceptive action of a p38α MAPK inhibitor, SD-282, in a diabetic neuropathy model, **109**, 409
Subcellular localization
Mu-opioid receptor knockout prevents changes in delta-opioid receptor trafficking induced by chronic inflammatory pain, **109**, 266
Sympathetic sprouting
Decreasing sympathetic sprouting in pathologic sensory ganglia: a new mechanism for treating neuropathic pain using lidocaine, **109**, 143
Systematic review
Systematic review of prognostic cohort studies on shoulder disorders, **109**, 420
Taxol
Ethosuximide reverses paclitaxel- and vincristine-induced painful peripheral neuropathy, **109**, 150
Temperament
Genetic influence on variability in human acute experimental pain sensitivity associated with gender, ethnicity and psychological temperament, **109**, 488
Temporal summation
Sex differences in temporal summation of pain and aftersensations following repetitive noxious mechanical stimulation, **109**, 115
Temporomandibular disorders
Reasons for missing interviews in the daily electronic assessment of pain, mood, and stress, **109**, 389
Tension-type headache
Treatment of chronic tension-type headache with botulinum toxin A: a randomized, double-blind, placebo-controlled multicenter study, **109**, 110
Tetrodotoxin-resistant sodium channel
Absence of an association between axotomy-induced changes in sodium currents and excitability in DRG neurons from the adult rat, **109**, 471
Thalamic ventral medial nucleus-posterior
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Therapy
Treatment of chronic tension-type headache with botulinum toxin A: a randomized, double-blind, placebo-controlled multicenter study, **109**, 110
Thermal sensation
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Third molar extraction
A double-blind placebo-controlled comparison of tramadol/acetaminophen and tramadol in patients with postoperative dental pain, **109**, 250
Tramadol
A double-blind placebo-controlled comparison of tramadol/acetaminophen and tramadol in patients with postoperative dental pain, **109**, 250
Tramadol/acetaminophen
A double-blind placebo-controlled comparison of tramadol/acetaminophen and tramadol in patients with postoperative dental pain, **109**, 250
Transgenic
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
Treatment
Relationship between changes in coping and treatment outcome in patients with Fibromyalgia Syndrome, **109**, 233
Trigeminal pain mechanisms
Associations between pain and neuromuscular activity in the human jaw and neck muscles, **109**, 225
TRPV1
Effects of TRPV1 receptor antagonists on stimulated iCGRP release from isolated skin of rats and TRPV1 mutant mice, **109**, 284
U0126
Activation of extracellular signal-regulated protein kinase in dorsal horn neurons in the rat neuropathic intermittent claudication model, **109**, 64

Validity
Development and validation of the Child Activity Limitations Interview: a measure of pain-related functional impairment in school-age children and adolescents, **109**, 461
Ventral posterior thalamic nucleus
Allodynia in patients with post-stroke central pain (CPSP) studied by statistical quantitative sensory testing within individuals, **109**, 357
Vincristine
Ethosuximide reverses paclitaxel- and vincristine-induced painful peripheral neuropathy, **109**, 150
Visual non-selective non-sustained attention
Decrease in non-selective, non-sustained attention induced by a chronic visceral inflammatory state as a new pain evaluation in rats, **109**, 214
Whole cell patch clamp
Electrophysiological characterization of *N*-methyl-D-aspartate receptors in rat dorsal root ganglia neurons, **109**, 443
Whole-cell patch clamp
Absence of an association between axotomy-induced changes in sodium currents and excitability in DRG neurons from the adult rat, **109**, 471
WIN 55,212-2
Activation of peripheral cannabinoid receptors attenuates cutaneous hyperalgesia produced by a heat injury, **109**, 432
Wind-up
Sex differences in temporal summation of pain and aftersensations following repetitive noxious mechanical stimulation, **109**, 115
